■ BONUS EKSKLUSIF: KUMPULAN RUMUS CEPAT MATEMATIKA SD

SmartDrill SD 2026 — Panduan Praktis Siap Ujian TKA & Sekolah

Ringkasan rumus aritmatika, bangun datar & bangun ruang lengkap dengan gambar asli.

1. ARITMATIKA & PECAHAN

- **Operasi Campuran (PMDAS):** Kurung → Pangkat → Kali/Bagi → Tambah/Kurang.
- **Pecahan:** a/b ± c/d = (ad±bc)/bd | a/b × c/d = ac/bd | a/b ÷ c/d = ad/bc
- **FPB & KPK:** FPB (faktor sama pangkat terkecil), KPK (semua faktor pangkat terbesar). a × b = FPB × KPK.

2. BANGUN RUANG (3D) & ILUSTRASI

	**Kubus:** Volume = s^3, L.Permukaan = $6s^2$
	**Balok:** Volume = p×l×t, L.Permukaan = 2(pl+pt+lt)
	**Tabung:** Volume = $\pi r^2 t$, Selimut = $2\pi rt$
	**Kerucut:** Volume = ■$\pi r^2 t$
	**Bola:** Volume = ■/■πr^3, L.Permukaan = $4\pi r^2$
